## State Water Resources Control Board

### Groundwater Quality Funding Program SB 445 – Site Cleanup Subaccount Program (SCAP) SCAP January Update

The Site Cleanup Subaccount Program (SCAP) has posted an initial list of projects approved to receive funding. The [Funded Projects List](#) will be continuously updated. Pre-Applications are still being accepted through FFAST under the Groundwater Quality Funding Program (GWQF) Pre-Application. After Pre-Applications are submitted, the duration of the eligibility and review process depends greatly on the applicant's and/or responsible party's ability to submit requested documents and additional information.

Please visit the Site Cleanup Subaccount Program's webpage to find additional information and resources. All questions should be submitted to the email address below; your inquiry will be directed toward appropriate staff. The SCAP webpage is also provided below:
